

## **New Centers and Institutes Website Launches**

Jan. 22, 2021 - The Office of Research has launched a new mini-website to highlight the research Centers and Institutes at UCF.

The site ( <https://www.research.ucf.edu/centers.html>) lists more than 50 centers and includes contact information and a short description about what each research group does. The site is intended to be a directory and we hope that it facilitates an information exchange and collaboration among researchers.

For questions, to be added to the list or for more information about Centers and Institutes contact Debra Reinhart, Associate Vice President for Research and Scholarship at [debra.reinhart@ucf.edu](mailto:debra.reinhart@ucf.edu).
