

Update on Submitting Pre-Proposals, Letters of Intent and White Papers

April 2, 2021 – The Office of Research has released new and improved instructions for the submission of Pre-Proposals, Letters of Intent, and White Papers.

The update was made with the collaboration of DARF. The new procedures are effective immediately, although we anticipate a transition period as everyone gets acclimated to the new requirements. To [review the new procedures click here](#) . You may also look them up under the Research '[Policies and Procedures](#)' section on the OR website.

The OR team thanks the research community in advance for helping us shift to a more efficient process. If you have questions please reach out to Stephanie Rodriguez-Makhlouf, assistant director for Pre-Award at Stephanie.R.Makhlouf@ucf.edu
