

## **What is SET and Why Should You Should Care**

Feb. 14, 2022 – Curious about what the heck SET is?

Join UCF's Senior Vice President for Administration and Finance Gerald Hector and the Knight Vision Service Enhancement Transformation (SET) Project Champions for a session aimed at answering just that.

The SET Project is part of the Knight Vision Program. It aims to improve and simplify HR, payroll, finance, procurement and unit-based post-award services and processes throughout our university. Knight Vision will replace the current PeopleSoft system with the cloud-based Workday system to modernize and simplify UCF's transactions, improve transparency across the campus community and provide a robust platform for sharing and analyzing data.

The first component of the transformation is adoption of Workday, and it will go live July 1. Don't get caught unaware. Join one of two information session for a peek at what it will look like, how it will impact you and why it is important for UCF to make this move. On Feb. 16 you'll hear about the overall project straight from Hector. The Feb. 17 is deep dive into Workday.

WHEN: February 16, from 9:30 a.m. to 11 a.m.
