

UCF Office of Research Fiscal Year 2022 Funding

The final award number for UCF Office of Research funding for fiscal year 2022 is \$214,862,264. This is a .94% increase from fiscal year 2021.

Of the \$214.8 million, about \$115.66 million came from federal agencies such as DoD, NASA, NIH, and NSF. Industry awards totaled about \$56.94 million. State and local awards were about \$42.36 million.

For FY2022, CECS generated the most funding, followed by FSI, COS, CREOL, and CCIE.

The Faculty Research Clusters generated about \$14.9 million collectively.

Some of the top awards are related to research into autonomous navigation, human-on-a-chip systems, training, and education.
