Mr. Douglas Backman
Associate Director
Office of Research & Commercialization
University of Central Florida
12443 Research Parkway
Orlando, FL 32816

Dear Mr. Backman,

The Office of Naval Research, Atlanta Regional Office performed a Property Management System Analysis (PMSA) for the University of Central Florida, Orlando, Florida during the period of 03 – 07 April 2023. The PMSA was performed in accordance with FAR and OMB requirements.

The objective of the PMSA was to ascertain the ability of the University of Central Florida's property management system to protect, preserve, account for and control Government property in its custody. The review was also to determine if the organization was in compliance with applicable Federal regulations. The PMSA included various tests and analyses of the institution's internal management controls for property management, inventory procedures, reports, disposition activities and other areas as deemed necessary to perform the PMSA.

Based upon the results of this PMSA and in the judgment of the Property Administrator, the property management system at the University of Central Florida is compliant to protect, preserve, account for and control Government owned property.

A copy of the PMSA report is being provided as enclosure (1) to this letter.

If you have questions or need additional information, please contact the undersigned at ethel.m.glover.civ@us.navy.mil, telephone (229) 210-2086.

Sincerely,

Ethel M. Glover
